CYBERSECURITY AND INNOVATION THE NEW ERA OF CIVIL AVIATION

**ONLINE CONFERENCE
29 – 30 OCTOBER 2020**

About the event

29 – 30 October 2020

Uncertain times share the same common feature – that people always come together. Years on the row we have gathered to celebrate civil aviation and stay abreast on the developments that rapidly emerge and to strengthen our connection. This year we meet in a new format, going online. As October is the European Cybersecurity Month (ENISA and EC DG CONNECT) we join forces with our partners, speakers and participants to create an insightful event that tackles on a series of issues in the cybersecurity and innovation fields, especially in these times of uncertainty and need for reform.

As an inuit tale describes, the life-death-life cycle is a natural part of existence and for something to be reborn stronger, brighter, it needs to die a little first. Aviation is going through a crisis, however, it is an opportunity to reinvent itself and come back with a renewed image and

strategy, adapting to its never ending challenges. This event is a contribution to the continuous creation of the common aviation consciousness.

Format

Online – ZOOM Platform.

Program

Day 1, 29 October 2020 18:00 - Virtual cocktail, Breakout Rooms and Concert

Zoom invitation will be sent out to all registered participants.

Registered participants will be invited to prepare beforehand a cocktail from the list of recipes to be distributed a day in advance.

Dress code: cocktail

18:10 – Keynote Speaker 18:25 – 19:00 – Breakout rooms

1. Understanding cybersecurity – a regulatory and industry perspective
2. COVID 19 – cybersecurity implications and challenges for innovation

19:00 – 19:15 – Concert

Day 2, 30 October 2020, 15:30 – Panels

15:30 – 16:45 – Cybersecurity – the silent threat of civil aviation

This panel will address the issues currently at debate with respect to cybersecurity as well as the notion of aviation cybersecurity. The panel will look at

cybersecurity from regulatory perspective at international and regional level, followed by presentation from aviation stakeholders with respect to their current challenges, concerns, measures, leading the audience to understanding the threats and risks of aviation cybersecurity.

17:00 – 18:15 – Innovation – shaping the future of aviation

This panel will discuss the opportunities for the future of a greener aviation and the challenges that the ongoing pandemic has brought upon innovation in the air transport sector.

18:30 – 19:30 - Breakout rooms

1. Cybersecurity – tabletop exercise
2. Cybersecurity – understanding the threat
3. Innovation – Sustainable Aviation
4. Innovation – Urban mobility and public health

Our Speakers

Our list of speakers comprises international experts from both

government and industry developing a complex approach to the subjects under discussion, among which we mention:

Mr. Sylvain LEFOYER, Deputy Director of Aviation Security and Facilitation, International Civil Aviation Organization (ICAO)

Dr. Parimal H. Kopardekar, Director, NASA Aeronautics Research Institute

Mr. Ion GROSU, Director Aviation Security and Cybersecurity, Romanian Civil Aviation Authority

Mr. Jeffrey TROY, President, CEO at Aviation Information Sharing and Analysis Center (A-ISAC)

Prof. Dr. Octavian Thor PLETER, Universitatea Politehnica Bucuresti

Dr. Benjamyn I. SCOTT, **ATM & New Technologies Manager** AeroSpace and Defence Industries Association of Europe

Mr. David HILD, CEO Fly Green Fund

Mr. Steve LEE, Aerospace Cybersecurity Program Manager, American Institute of Aeronautics and Astronautics

Mr. Andreas MEYER, Director ICAO Liaison,

International Business Aviation Council.

Participation Fee and Registration

119 Euro

Pay by **22nd October** and get more than **20%** off – pay only **90 Euro**

For registration, please fill in the attached form and send it to tas@airlaw.ro.

After registration, information will be sent by email with respect to payment details.
